### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Nash on 6/24/2005.

The application has been amended as follows:

Claims 1, 3, 5, 6, 13, 17-23, and 25 have been canceled.

On line 5, 6, 10, and 11 of claim 24, --about-- has been inserted before "0.1%".

At the end of claim 24, -- wherein said aromatic hydrocarbon conversion reaction is transalkylation reducing benzene content and C9 content to increase the contents of xylene and toluene in the product-- has been inserted.

On line 2 of claim 26, line 3 of claim 27, lines 2 and 4 of claim 28, --about-- has been inserted before "0.1%".

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or render obvious a process, as called for in claim 24, during which a starting feed is pretreated to reduce the amount of non-aromatics of from at least about 10%wt to about 0.1%wt. As shown in examples disclosed in the specification, this pretreatment step yields unexpected results, namely hydrogen consumption and the activity of the catalyst.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
